Now I'd like to ask some questions about that (most recent) pregnancy. I'd like to ask about whether it was hard for you and your partner to get pregnant that time. Some couples try for months or years to get pregnant. Other couples get pregnant very easily, sometimes even while using contraception to prevent pregnancy.

E9.	Think back to that most recent pregnancy you fathered. Around the time when your partner got pregnant, had you and she been trying to get pregnant, trying not to get pregnant, or not concerned about whether or not she got pregnant?
